

Exercise 2-1

Dreamweaver CC 2014

Since 1996, Dreamweaver has been the leading product for web developers who want to build web pages by using a visual interface. Now, Dreamweaver CC 2014 takes that to a new level, with tools that make it easier than ever to take advantage of today's best web design practices.

The trick to mastering Dreamweaver is learning how to use all of its windows, panels, toolbars, and web technologies. To find out how this book teaches you the skills you need, [read more...](#)

For customer service, call us at 1-555-555-5555.

Create a new webpage, index.html

```
<!doctype html>
<html lang="en-us">
  <head>
    <meta charset="utf-8">
    <title>Dreamweaver book</title>
    <link rel="stylesheet" href="book.css">
  </head>
  <body>
    <h1>Dreamweaver CC 2014</h1>
    
    <p>Since 1996, Dreamweaver has been the leading product for web
    developers who want to build web pages by using a visual interface.

<p id="service">For customer service, call us at 1-555-555-5555. </p>
</body>
</html>
```

Save As index1.html

Add

```
body {
    font-family: Arial, Helvetica, sans-serif;
    font-size: 100%;
    width: 550px;
    margin: 0 auto;
    padding: 1em;
    border: 1px solid navy;
}
h1 {
    margin: 0;
    padding: .25em;
    color: red;
    font-size: 180%;
}
img {
    float: left;
```

```
        margin: 0 1em;
    }
    p {
        margin: 0;
        padding-bottom: .5em;
    }
    #service {
        color: red;
        clear: both;
    }
```

Exercise 2-2

Save the index1.html file as index2.html and save the book.css as book1.css.

Create a new web page by adding your own Pictures, Colors and Text

Change the css

h1 - color: ?, font-size: ?%,

img - float: right

#service - color: ?

Exercise 2-3

Validate index2.html W3 Validator.

Make a screen cap validations.
